EXPERIENCE

Research Analyst Intern

Feb 2026 – Aug 2026

Indira Securities Private Limited | Indore

- Conducted bottom-up fundamental research across listed companies and SME IPOs, analysing DRHPs, annual reports, financial statements, business models, competitive positioning, and peer benchmarks.
- Built financial valuation models including DCF, SOTP and relative valuation; developed a 9-tab DCF model for Praveg Limited incorporating segment-level revenue assumptions, management guidance and property-level modelling.
- Participated in the Amara Raja Energy & Mobility Q1 FY27 earnings call, prepared and directly asked management questions on key business and new-energy initiatives, and incorporated management responses into subsequent research analysis.
- Produced institutional-style research outputs including HTML dashboards, Word-based company deep-dives and PowerPoint presentations, translating analysis into concise investment insights.
- Analysed special situations including buybacks, demergers, promoter pledge events and open offers, evaluating capital allocation decisions and scenario-based outcomes.
- Evaluated AI-generated investment insights, announcement-impact assessments and stock-screening outputs, providing research-driven feedback to improve analytical quality and investment relevance within the Stockk platform.

Business Operations Assistant

Jan 2022 – Jan 2026

Maa Annapurna Enterprises (Family Business) | Indore — Retail and distribution business dealing in hardware and plumbing materials.

- Managed daily fund flows, receivables, payables, and cash reconciliation using Excel-based tracking.
- Improved working capital efficiency by digitizing collections (UPI/card), reducing receivable cycles.
- Prepared sales, cash flow, and vendor analysis to support procurement and inventory decisions.

SKILLS

- **Investment Research:** Equity Research, Fundamental Analysis, Special Situations, SME IPO Analysis, Industry/Sector Research
- **Valuation & Analysis:** DCF, SOTP, Relative Valuation, Financial Statement Analysis, Financial Modeling, Scenario & Sensitivity Analysis
- **Technical:** Advanced Excel, Financial Data Analysis, Research Automation, Financial Analytics Tools
- **Research & Reporting:** Investment Dashboards, Analytical Reporting, PowerPoint Presentations, Management/Analyst Interaction

RESEARCH PROJECTS

Indian Battery Industry Research: Exide Industries & Amara Raja Energy & Mobility

- Authored a 98-page institutional research dossier and 46-slide investment presentation covering battery technologies, manufacturing, raw material supply chains, BESS, EV batteries, competitive landscape and the Indian battery industry.
- Developed comprehensive company dossiers on Exide Industries and Amara Raja Energy & Mobility through detailed analysis of annual reports, earnings call transcripts, and investor presentations, evaluating business models, competitive positioning, lithium-ion strategy, gigafactory expansion, management commentary, and investment risks.
- Built integrated valuation models for Exide Industries and Amara Raja Energy & Mobility, incorporating DCF, SOTP, relative valuation, sensitivity analysis, and scenario modelling.

Equity Beta Analytics Tool

- Designed and deployed a financial analytics tool covering regression beta, Blume adjustment, statistical diagnostics, rolling beta and sensitivity analysis across different lookback periods, frequencies and benchmarks.

Wipro Buyback Analysis

- Built a quantitative model evaluating Wipro's ₹15,000 Cr buyback using Monte Carlo simulations, tender participation economics, buyback pricing dynamics and scenario analysis to assess investor outcomes.
